

## Indian Head Hill

This trail segment of the Panther/ Burroughs Loop Trail runs up and over Indian Hill and spans about 20 acres starting from the small parking area and kiosk on Dicenzo Boulevard and going to the entrance of DCR's Callahan State Forest where the two long-range trails split, and the Indian Hill trail connects to the extensive Callahan trail system. The trail has an adventurous start, with a gorgeous view to the northwest at the peak - you'll find it through some shrubbery by the edge of the hill.
