Holt's Grove

This first parcel of conservation land purchased by City Conservation from the Holt family is located next to Marlborough High School, this parcel has long been used by city residents for various purposes. Trails wind their way through the wooded areas behind a man-made pond originally built for ice skating. Come see what surprises this area has to offer, like the bat boxes perched near the pond. This 20-acre property has a 1-mile trail which connects to the Panther/Boroughs Loop Trail system along Stevens Street.
