

Lake Williams Trail

Lake Williams has 113 acres of lake and land in the heart of the city. The 1.5-mile trail loop runs through the shady woods along the lake shore through young woodland and mature stands of trees, across wetlands on boardwalks and offers a view at the top of the hill. The just over half mile of floating boardwalk offers wonderful water views to enjoy. You are invited to walk, hike or run to enjoy nature along this trail, and you are encouraged to watch birds that use this lake for feeding, especially during migration in the spring and fall. However, because of the sensitive nature of Lake Williams as a backup water supply, there is **NO FISHING, NO PETS and NO WATER ACCESS**. This will be strictly enforced.
